

# PP Band Tape Cutter

## Outline:

When cans, bottles and glass bottles carrying to food manufacturers, it needs to use PP band to protect collapse in the carrying lorry. When PP band cutter introduced into filling line, then it becomes smooth to carry through automation and mechanization for simplifying cleaning work that saved labor.

- ◆ It detects automatic positioning, reduces cutting wastage (2-3 cm) that becomes easy to post processing.
- ◆ It handles products without scratch.
- ◆ Tape processing time is speedy.
- ◆ It suits for saving labor for its compact design and automation.

## Specification:

<b>Band Outline</b>	PP Band, PE, PET Band
<b>Processing Capacity</b>	1 pallet 3 Pieces / 3 Min 20 pallets/ H
<b>Body Size</b>	2350 (mm) L×750 (mm) B×1800 (mm) H
<b>Power Ability</b>	With automatic tape detection Body height adjustment device inclusion
<b>Power Consumption</b>	200V 3φ 1.3kW
<b>Air consumption</b>	5 kg/cm <sup>2</sup> ×150ℓ/min
<b>Other specifications</b>	Rice-shaped seat band solution bundles can possible by turn-table It can load 2-3 units at high speed
